

# Nothing Like You

Dave Barnes

Streets full of people  
Souls full of sparks  
Days full of color  
Turning nights full of stars

Everywhere I've ever been  
I come back time and time again

Cause there ain't nothing like you  
Ain't nothing like you, ain't nothing like you  
There ain't nothing like you  
Ain't nothing like you, ain't nothing like you

Bluest skies to the ocean tides  
All got something to prove  
There ain't nothing like you  
Ain't nothing like you

There ain't nothing like you  
Ain't nothing like you

My head's full of trouble  
My heart just won't sleep  
Only you and every one of your kisses  
Bring that healing to me

The stories that are mine to tell  
All got you and all end well

Cause there ain't nothing like you  
Ain't nothing like you, ain't nothing like you  
There ain't nothing like you  
Ain't nothing like you, ain't nothing like you

Bluest skies to the ocean tides  
All got something to prove  
There ain't nothing like you  
Ain't nothing like you

There ain't nothing like you  
There ain't nothing like you

There ain't nothing like the way I feel  
When there's nothing but me and you  
Your love has got a hold on me  
There's nothing that I can do

There's nothing like you  
There ain't nothing like you

There ain't nothing like you  
Ain't nothing like you, ain't nothing like you  
There ain't nothing like you  
Ain't nothing like you, ain't nothing like you

Bluest skies to the ocean tides  
All got something to prove

There ain't nothing like you  
Ain't nothing like you

There ain't nothing like you...  
Ain't nothing like you...
