

Runs in the Family

Dave Barnes

Think of our daddy's broken heart
The love that he found there in the dark
'Cause he just passed it down
The same light that his father found
No we all believe

'Cause it runs in the family, in our blood
Every generation in the world yet to come
It runs in the family, in our veins
It's every bit a part of us as our last names
It runs in the family
It runs in the family

There ain't a thing that we can claim
But there go out before the grave
So I'm gonna pass it down
The same light that my father found
And pray you believe

'Cause it runs in the family, in our blood
Every generation in the world yet to come
It runs in the family, in our veins
It's every bit a part of us as our last names
It runs in the family

It runs in the family, in our blood
Every generation in the world yet to come
It runs in the family, in our veins
It's every bit a part of us as our last names
It runs in the family
It runs in the family
It runs in the family
Ooh, it runs in the family

It runs, runs, runs, runs, runs
It runs in the family
Runs in the family, family
It runs in the family
Runs in the family, family
Oh yeah it runs
It runs in the family
Runs in the family, family
It runs in the family
Runs in the family, family
Ooh thank God that it runs
It runs in the family
Runs in the family, family
It runs in the family
Runs in the family, family
Ooh, ooh, ooh, ooh, ooh
It runs in the family
Runs in the family, family
Ooh thank God that it runs
It runs in the family
Runs in the family, family
Oh yeah
It runs in the family

Runs in the family, family
Ooh, ooh
It runs in the family
Runs in the family, family
