

She's The One I Love

Dave Barnes

She'll never tell you that's she's lonely
She's never been the crying kind
She's gonna tell the truth
No matter what it does to you
She's got forever in her life

She's the one I love
She's the one I love

She's so Southern when she's talking
She's got a secret she'll never tell
Don't you try to change her mind
And don't you dare ask her why
Cause she knows you all too well

She's the one I love
She's the one I love

She's a wildfire, she's a revelation
There's promise in her touch
Every kiss is a kind of salvation
I can't get enough

She's the one I love
She's the one I love

She's the one I love
She's the one I love
She's the one I love
She's the one I love
