

Want to Want You

Dave Barnes

How can I forget you like you've just gone
Break my heart just to move on
How do I stop missing you?

No matter what I do
No matter what I do
I want to want you
I want to want you
I want to want you
I want to want you

How do I forget you out of my mind
Just leave all the stuff behind
How do I stop missing you?

No matter what I do
No matter what I do
I want to want you
I want to want you
I want to want you
I want to want you

(I want, I want, I want...)

Can't tell a heart to just forget
Can't tell a heart to just move on
Maybe someday but I just can't think that
Oh no, cause I want to want you

I want to want you
I want to want you
I want to want you
I want to want you

(I want, I want, I want...)
