My baby is an angel don't tell me she can't fly Cause when I'm with her I'm way off the ground But hear lately they say angel has been flyin' kind of line And I think some devil brought my angel down I can't imagine angel just leaving me behind She said the world was hers with me around And all the things I've planned always with her in mind But I think some devil brought my angel down I'm gonna keep on looking high and low for her I can't let her fly away from me If I can't find her I can't show her love can grow Cause the way I love her she will plainly know That my angel is my baby and I need her oh so much But she's lost and I'm afraid that she's been flown But maybe she'll remember and fly back to my arms But I think some devil brought my angel down Yeah I think some devil brought my angel down
