It's just a small cafe I'm here most everyday at the junction of heartbreak road

I guess it's very clear it's you that put me here at the juncti on of heartbreak road

At the junction where losers and weepers meet and if you'd neve r been there before

They say if you stay at that junction long enough

Honey everybody walks into that door

I'll have a drink or two then I'll have one for you and another for anyone I know

There are roads out of here for all those who leave to tears I'm at the junction with no place to go I'm at the junction with no place to go $\[\]$

 $I^{\prime}m$ at the junction with no place to go
