

# I'm Puttin' It Together

**Dave Dudley**

I'm puttin' it together I'm gonna make it right  
I'm gettin' it all together but it's been a fight  
How come you have to treat me the way that you do  
I can put it all together how bout you  
Are you looking at tomorrow can you see like I do  
Lonely you without me and me without you  
I finally have the courage to let you know  
How much I love and need you I don't wanna let you go  
Can we do a little better someday somehow  
We gotta put it all together I mean now we gotta put it all together I mean now
