## **Use You**

## **Dave Gahan**

It's killing me
To be in this room
I've gotta get out
I've gotta get out soon

I'm hurting you
With everything I do
It's too long
Too long in this place

We're counting down Only seconds now I gotta hang on Hang on to you

I'm staring at
My cuticles
Too long
Too long in this place

We have each other You are my brother Sitting here beside you I just wanna use you

We have each other You are my brother Sitting here beside you I just wanna use you

I'm hurting you
With everything I do
I've gotta get out
I've gotta get out soon

It's killing me
To be in this room
I don't belong
Belong in this place

We have each other You are my brother Sitting here beside you I just wanna use you
