

Kamikaze Culture Shock

Davey Suicide

Take candy from a stranger, with promises as empty
As the love who said they'd never leave your side
Take faith in the gospel, sweet poison in a bottle
Distorted alibis, blindfold our eyes

Watch them burn, take back your heart,
Watch them burn, take back your mind
Watch them burn, take back your soul,
Watch them burn, take back your life

We're not going down, we'll live forever
We're not going down, nothing can stop us
We're not going down, like it or not
Welcome to the Kamikaze Culture Shock

The innocence has landed on the moon in a candid video
To please our doubting appetite
The friction grows between us, as maggots eat the fetus
Of a dream you try to wake me from each day

Watch them burn, take back your heart,
Watch them burn, take back your mind
Watch them burn, take back your soul,
Watch them burn, take back your life

We're not going down, we'll live forever
We're not going down, nothing can stop us
We're not going down, like it or not
Welcome to the Kamikaze Culture Shock

We're taking over

No surrender this is war
No more savior, taking over

We're not going down, we'll live forever
We're not going down, nothing can stop us
We're not going down, like it or not
Welcome to the Kamikaze Culture Shock
