

I've got the pedal to the floor
I'm fiending like a cutter
Searching for a knife
A sudden a jolt of life
Like a bee getting honey

Roll roll the carpet out
This is what its all about
Roll roll the carpet out
This is what its all about
All about, this is what its all about

We want it all, We want it now
Don't ever tell us what to do
We are the kids of America
We want it all, We don't care how
We'll never ever be like you
We are the kids of America

The lady's riding shotgun
Her tongue's a loaded weapon
Pulling up her dress jerk the wheel to the left
Two worlds collide.
Now we're lighting up the sky

Roll roll the carpet out
This is what its all about
All about, this is what its all about

We want it all, We want it now
Don't ever tell us what to do
We are the kids of America
We want it all, We don't care how
We'll never ever be like you
We are the kids of America

We're gonna take back what is ours
We're gonna meet under the stars
We're gonna take back what is ours
We won't fall apart

We want it all, We want it now
Don't ever tell us what to do
We are the kids of America
We want it all, We don't care how
We'll never ever be like you
We are the kids of America
