

# Medicate Me

Davey Suicide

1. 2. Tell me it's true  
Ya never had better when I penetrate you  
3. 4. Hows it gonna be  
I'd wish you the best, but your best was me  
5. 6. I need a quick fix.  
Someone nothing more than a number on my list  
7. 8. Bring on the hate  
Close to the edge but I will not break

Sticks and stones won't break the bones of a person who has no spine  
Break me down who needs a clown that aint worth my God damn time

You're the ice in my veins when I'm fading away  
Medicate me, medicate me  
You're the shot through my heart when I'm falling apart  
Medicate me, medicate me  
Come in I'm disturbed

9. 10 it begins again,  
The cycle always feeds when I'm at my witzend  
11. 12 so this is hell  
Screaming out loud, noone hears me yell

Doctor doctor prescribe me something to help me breathe  
My oxygen is running low i need that sweet release  
You're the ice in my veins when I'm fading away  
Medicate me, medicate me  
You're the shot through my heart when I'm falling apart  
Medicate me, medicate me  
Come in I'm disturbed

1. 2. Tell me it's true  
Ya never had better when I penetrate you  
3. 4. How's it gonna be  
I'd wish you the best, but your best was me

Come in I'm disturbed

You gave me the scissors to cut all ties from you  
I'll take a final shot and then I'm done with you

Sticks and stones won't break the bones of a person who has no spine  
Break me down who needs a clown that ain't worth my God damn time

You're the ice in my veins when I'm fading away  
Medicate me, medicate me  
You're the shot through my heart when I'm falling apart  
Medicate me, medicate me  
Come in I'm disturbed
