

# I'll Never Go

David Archuleta

You always ask me  
Those words I say  
And tellin' me what it means to me  
Every single day  
You always act this way  
For how many times I told you  
I love you for this is all I know

Come to me and hold me  
And you will see  
The love I give  
For you still hold the key  
Every single day  
You always act this way  
For how many times I told you  
I love you for this is all I know

I'll never go far away from you  
Even the sky will tell you  
That I need you so  
For this is all I know  
I'll never go far away from you

Come to me and hold me  
And you will see  
The love I give  
For you still hold the key  
Every single day  
You always act this way  
For how many times I told you  
I love you for this is all I know

I'll never go far away from you  
Even the sky will tell you  
That I need you so  
For this is all I know  
I'll never go far away from you

I'll never go far away from you  
Even the sky will tell you  
That I need you so  
For this is all I know  
I'll never go far away from you

That I need you so  
For this is all I know  
I'll never go far away from you  
That I need you so  
For this is all I know  
I'll never go far away from you
