

Too Much Blood in My Alcohol Level

David Ball

Well it ain't like me to hang out here
I rarely touch anything stronger than beer
Fact is I never been in this bar alone, no
But tonight my baby's out with somebody new
So in case there's any trouble I might get into
You better keep my keys and my cab fare home

I got too much blood in my alcohol level
You might as well bring that bottle to the table
I ain't a-gonna stop, till I get the mixture right
I'm gonna drink that girl right off of my mind
Till I'm one shot short bein' over the line
I got too much blood in my alcohol level tonight

Well I know right now I'm still talkin' straight
But gimme an hour baby just you wait
I won't be thinkin' 'bout what might-a been, not then
I'm gonna feed that jukebox, shoot me some pool
Act like a natural born honky tonk fool
Who don't even know, when to say, when

I got too much blood in my alcohol level
You might as well bring that bottle to the table
I ain't a-gonna stop, till I get the mixture right
I'm gonna drink that girl right off of my mind
Till I'm one shot short bein' over the line
I got too much blood in my alcohol level tonight

Oh yeah...

I got too much blood in my alcohol level
You might as well bring that bottle to the table
I ain't a-gonna stop, till I get the mixture right
I'm gonna drink that girl right off of my mind
Till I'm one shot short bein' over the line
I got too much blood in my alcohol level tonight

Yeah, I got too much blood in my alcohol level tonight
