

Chill Tonight

David Choi

Hey babe
How you doing today?
I'm still here at work
Just wanna take a call and say-ay
I love you but,
Work is just,
Eh
Thank god I'm fifteen minutes from home
But soon you won't be alone

I'll text you
Before I hit the road

We'll be staying up alright
I'll be home soon
Don't turn off the lights
Pick out a movie
It's raining outside
Let's light up the fire place
We're just gonna chill tonight

Whatchu cravin'?
Pizza or Mexican food
You know what?
I'll grab both
We'll pig out 'till we're full
Thank god for these kinds of nights
Casual and cool
Can't wait to do this and grow old
Together with you

I'll text you
Before I hit the road

We'll be staying up alright
I'll be home soon
Don't turn off the lights
Pick out a movie
It's raining outside
Let's light up the fire place
We're just gonna chill tonight

I'll text you
Before I hit the road

We'll be staying up alright
I'll be home soon
Don't turn off the lights
Pick out a movie
It's raining outside
Let's light up the fire place
We're just gonna chill tonight

Chill tonight
