

Oh I Never Knew

David Choi

Oh I never knew
How it all came true
Shooting stars and silver moon
They watch you spinning blue

Orbiting in space
The slowly fading faces
But the sun is shining bright all day
I hope we'll find a way
Cuz I won't be home today

I'll plant some gardens out in the air
So we can keep dreaming
Connecting our hearts
Is just the start of beginnings

Oh I never knew
How it all came true
How the sun is shining through
I won't be home with you
I won't be home with you
I can't come home to you
