

Orion

David Choi

Keep yourself together
You got friends across the seas
You can always count on me
Even if you don't believe

They keep wishin' as if you
Practiced sorcery
But witchcraft ain't your thing
You just keep 'em wondering

Wooooooo
Wooooooo

So I'm lookin' at Orion in the sky
Lookin' so bright
Everybody wonders what it feels like

How you holdin up there,
Orion, in the sky every night
whether if you had a choice or not
you'll always shine on

Eventually the light gets dim
And all good things must go
And shooting stars don't know,
Passin' palaces of gold

History has got our backs
And holds the key to what we lack
We're falling on our own
We're all trying to get back home

Wooooooo
Wooooooo

So I'm lookin' at Orion in the sky
Lookin' so bright
Everybody wonders what it feels like

How you holdin up there, Orion in the sky every night
Whether if you had a choice or not
You'll always shine on
Shine on
Shine on
Orion

So I'm lookin' at Orion in the sky
Lookin' so bright
Everybody wonders what it feels like

How you holdin up there, Orion in the sky every night
Whether if you had a choice or not
Whether if you had a choice or not
Whether if you had a choice or not
You'll always shine on
Shine on
Shine on

Orion
