

Our Song

David Choi

Here's a song that I wrote for us
It's simple so we both can remember
I'll sing this when I am feeling alone
And you do the same

When I sing this song
I'll be thinking of you
I'll be thinking of you
When I sing this song
Know that anywhere you are
You're really not that far
When you're singing our song

Even As Days Go And Disappear
I'll still hold your hand and I'll say
Forever and ever, we'll be here together
And nothing can take that away

When I sing this song
I'll be thinking of you
I'll be thinking of you
When I sing this song
Know that anywhere you are
You're really not that far
When you're singing our song

When I sing this song
I'll be thinking of you
I'll be thinking of you
When I sing this song
Know that anywhere you are
You're really not that far
When you're singing our song
Our Song, Our song...
