

# Time Marches On

David Cook

I never thought I'd see myself down here  
In the same damn place  
With the different year  
Well the lines on my face  
Never looked so clear  
I swear

You were six feet in  
On a one way street  
When you gave me the love  
With my heart on the sleeve  
In a world full of pearls  
And an endless sea  
You were all that needed  
All I needed

Time marches on  
Right or wrong  
Never waits for no one new  
Can't turn it off  
We'll make it through  
Cause time marches on without you

If you knew then what  
You know right now  
Would you've packed your bags  
And left this town  
Cause I'm still here  
With my heart on the ground  
This was the last thing I needed  
All I needed

Time marches on  
Right or wrong  
Never waits for no one new  
Can't turn it off  
We'll make it through  
Cause time marches on without you

I never thought I'd see myself down here  
In the same damn place with the different year

Time marches on  
Right or wrong  
Never waits for no one new  
Can't turn it off  
We'll make it through  
Cause time marches on without you

Time marches on without you  
Time marches on, I know  
Time marches on without you
