

# Love Is Blind

David Coverdale

They say love. Love is blind  
And true love is hard to find  
It makes you wonder now you're yesterdays news  
At the bitter end of a love affair  
Some you win some you loose

'Cause love is blind  
Love is blind

They say time can heal the pain  
But sooner or later it's back again  
But don't be angry that your heart could be so wrong  
When that old familiar feeling's got you  
Singing the same old song

'Cause love is blind  
Love is blind

Now your bed has been preparing  
For the nights you'll sleep alone  
Makes you wonder why you never learn from the past  
'Cause this ain't the first time baby  
And it won't be the last

'Cause love is blind  
Love is blind  
Love is blind  
Love is blind

So if love, love is blind  
And true love so hard to find  
There's only one remedy to take away the pain  
You gotta roll with the punches, baby,  
And start all over again

'Cause love is blind  
Love is blind

Love is blind, Love is blind, Love is blind, Love is blind  
Love is blind, Love is blind, Love is blind, Love is blind  
Love is blind, Love is blind, Love is blind, Love is blind  
Love is blind, Love is blind, Love is blind, Love is blind
