

Help Is on the Way

David Gates

If you like just to live for the moment.
Then the trick is to make it last a lifetime or two.
If you live on the double, better look out for trouble.
'Cause it's moving twice as fast, just like you.

And if you're the kind that's gotta keep a one, a one step ahead.

Afraid that your past is gonna catch you one day.
Well soon it'll be over, you'll be running in clover.
Help, help, help is on the way, yeah.
Help, help, help is on the way, yeah.

So don't you worry, worry, worry, worry, worry yourself.
You can have your cake and eat it too.
Never have to hurry, hurry, hurry, hurry, hurry yourself.
Cause all we got to do, we all got to do...

Is do away with time.
Do away with time.
Leave it all behind.
Do away with time.

Now we all know that time is so precious.
So not to be late from running this way and back
But now maybe it's time to drop it, sneak up behind and stop it
Do we really need to know where it's at?

So don't you worry, worry, worry, worry, worry my friend.
I've got a plan to pull us through.
Never have to hurry, hurry, hurry, hurry, hurry again.
But don't be late because I'm counting on you...

To do away with time.
Do away with time.
Leave it all behind.
Do away with time.

Ooh, yeah!
