

Watch Out

David Gates

Watch out!
Some mistake that boy you're making
Watch out!
Don't you know you're being taken?
Watch out!
Can't you see she's only faking?
Boy, you know she's setting you up

Watch out!
All the sisters you've been fooling
She knows!
Now she knows you need some cooling
It's too late!
It's too late she's got you drooling
And boy, you know she's setting you up
For knocking you down

Watch out!
Such a tricky situation
Watch out!
You gotta protect your reputation
Watch out!
She's got the power of liberation
And man, you know she's setting you up
For knocking you down

Just setting you up
And she's gonna knock you down
It's such a dirty situation
