

A Star Looks Down Tonight

David Hasselhoff

I feel her close, I swear it's true
Yes, I feel right in this moment
She looks down on you

From angel's land
Her tender hand is caring
'Cause a mother's love will never end

Daddy, tell me what is heaven like
Where is Mummy? I wanna hold her tight

A star looks down tonight
Shining down and burning bright
Though she's gone away
Where the angels play

A star looks down tonight
Daddy's here and everything's alright
And our love goes on
With a simple song, on and on

Daddy say if I should pray
Could I talk to her
And tell her all my secrets

Baby, do if it pleases you
Let your mother know
We love her so completely

Daddy tell me what is heaven like
Where is Mummy?
I wanna hold her tight

A star looks down tonight
Shining down and burning bright
Though she's gone away
Where the angels play

A star looks down tonight
Daddy's here and everything's alright
And our love goes on
With a simple song, on and on

Though she's gone away
Where the angels play
A star looks down tonight
Daddy's here and everything's alright
And our love goes on
With a simple song on and on
