

# All The Right Moves

David Hasselhoff

Don't want to spend another year facing the same wall  
Don't want to play another game bouncin' the same ball  
Don't want to wait for that lucky break  
Got a feelin' someday I'm gonna make  
Yeah, all the right moves

A lot of people that I love are gonna be a left behind  
I know this gonna be some lonely moments but I don't mind  
I'll take a chance, it's a winner takes  
In the end a winner always makes  
Yeah, all the right moves

Late at night I'm still awake  
I feel it come but I just can't wait  
So many dreams that could all come true  
Oh baby, if you only knew  
Sometimes it feels like I just can't lose  
I know I'm gonna make all the right moves

I see the future in your eyes  
Yes, I can see that day  
I'd like to say I'm gonna miss this place but I just don't feel  
that way  
I made a promise that I can't break  
I told myself someday I'm gonna make  
Yeah, all the right moves

Late at night I'm still awake  
I feel it come but I just can't wait  
So many dreams that could all come true  
Oh baby, if you only knew  
Sometimes it feels like I just can't lose  
I know I'm gonna make all the right moves
