

# It Feels So Right

David Hasselhoff

I got my mind made up, and baby you're not getting away  
My mind made up, I knew it from the very first day  
I Saw ya standing in a crowded bar  
I had to ask a friend to tell me who you are  
I got my mind made up... to be with you

Wanted you bad, but you were with someone else  
And girl I really had to be near you  
And when he took you home, I followed right on your tail  
Doin' what my heart told me to do...

It feels so right  
I won't take no  
It feels so right  
I won't let go  
I need you...

I got my mind made up, and baby you belong in my life  
My mind made up, your beauty cuts me deep as a knife  
Waited for you till the morning sun  
You weren't sure of me, you said "I have to run"  
I got my mind made up... to be with you

I wouldn't give up, I knew that you were for me  
I had to make you see that I loved you  
And when I took your hand, and when I looked in your eyes  
I could see you had the feeling too

It feels so right  
I won't say no  
It feels so right  
I won't let go  
I love you...

I swore I wouldn't give up, I knew that you were for me  
I had to make you see that I loved you  
And when I took your hand, and when I looked in your eyes  
I could see you had the feeling too

It feels so right  
(Feels so right)  
I won't take no

It feels so right  
(Feels so right)  
I can't let go  
...
