No Words For Love

David Hasselhoff

I've been tryin' to tell you baby
Just how good life could be
If I just had you by my side for eternity
But you're always goin' somewhere
You've got something on your mind
I know, I know, I could make the time
But it's gonna be right
And it's gonna be at night
When we're all alone
And I'm holding you tight
And I'm lookin' in your eyes
With the stars out up above
I know, I'm tryin', but there's no

No words for love Not my love baby No words for love No not my love And I`m lookin` in your eyes With the stars out up above I swear, I try, but there`s no

No bail, you're all baby In your dizzy little world When I look at you I see a tide, tide little girl Tide are waitin' Tide are waitin' for a chance A chance to let go And find some real romance But it's gonna be right And it's gonna be at night When we're all alone And I'm holding you tight And I'm lookin' in your eyes With the stars out up above I swear, I'm tryin', but there's no

For my love baby For my love baby Not my love baby Not my love baby No words baby No words baby No words baby For my love baby For my love baby Not my love baby Not my love baby For my love baby For my love baby
