

# Save The World

David Hasselhoff

Take a look around the world  
See the tears in children's eyes  
Make it better and give them all your love.

I see no reason for hunger and pain  
Be aware we're all the same  
Let's come together for a better life - right now.

Now it's time to make changes  
That millions are hoping for  
There's a way if we all lend our hands  
To the lost and poor.

Save the world - save our lives  
Stop the fear in children's eyes  
Give your love - heal the need  
Save the dreams for you and me.

There's a light to guide the way  
If you try to save the world  
Make a choice and help them with lovin' care.

Now it's time that we have to do  
Something to change the world  
Stop pretending and let love lights shine -  
For peace on earth.

Save the world - save our lives  
Stop the fear in children's eyes  
Give your love - heal the need  
Save the dreams for you and me.

Save the world - save our lives  
Stop the fear in children's eyes  
Give your love - heal the need  
Save the dreams for you and me.

Save the world - save our lives  
Stop the fear in children's eyes  
Give your love - heal the need  
Save the dreams.....
