Time For Lovin'

David Hasselhoff

Come walk with me for a while
Come talk to me for just a while
I missed you so much
It's been so long

Listen to your heart
It's been far too long
Look into my eyes
Listen to my song

It's time for lovin'
To me and for you
I want you baby
And you know it's true
It's time for lovin'
To me and for you
I love you I love you I love
Everything I do for you

I know what I said was wrong
You know sometimes we don't say
What we really feel
Soon it could be over
Don't let this moment slip by
Don't let us slip by

Finally alone
I can feel you breathe
I can read your mind
I know what you need
