

# Chasing Shadows

David Hodges

Stand  
Stand there and tell me  
What made you love me  
When winter's in

And where  
Where did we lose it  
Ever the truth is  
Nobody wins

Chasing shadows  
Trying hard to believe  
What I want is not what we need  
Following ankles back to who we were  
What we've lost what we can't return  
And every time you call my name it never changes  
I can't let go  
So I'll stay  
Chasing shadows

I've  
I've always been warned  
To walk away from  
What holds me down

And time  
Time can't always tell us  
If love is gonna save us  
Or let us drown

Chasing shadows  
Trying hard to believe  
What I want is not what we need  
Following ankles back to who we were  
What we've lost what we can't return  
And every time you call my name it never changes  
I can't let go  
So I'll stay  
Chasing shadows

Drawing circles  
Blindly running through all that we've known  
But the heartache never ending  
We can try not to face  
I can't erase this alone...  
Ooohhh...

Stand  
Stand there and tell me  
What made you love me

Chasing shadows  
Trying hard to believe  
What we want is not what we need  
Following ankles back to who we were  
What we've lost what we can't return  
And every time you call my name it never changes

I can't let go  
So I'll just stay  
Chasing shadows
