

Don't Mention Tomorrow

David Houston

I know I'll be blue for a while yet till your mem'ry finally goes I'll wait

And these tears that keep falling around me mean a rainbow is on its way

So don't mention tomorrow till I have time to forget yesterday

I'm still in a state of confusion cause I'd planned a future with you

And it's such a big change for my world to turn from happy to blue

So don't mention tomorrow till I have time to forget yesterday

(Don't mention tomorrow) till I have time to forget yesterday
