

As the Crow Flies

David Lee Murphy

Straight as the crow flies
I won't be long
Straight as the crow flies
I'll be going home

Baby, I want you to know
It don't matter where you go
If there ain't one, I'll cut a road to you
Might get rocky might be rough
I'll go through or rise above
Whatever it takes to get my love to you

Straight as the crow flies
I won't be long
Straight as the crow flies
I'll be going home

Ain't no price too high to pay
In the dark of night or light of day
I'm gonna find the quickest way to you
Wind may blow, rain may fall
But that won't slow me down at all
I'll get on my knees and crawl to you

Straight as the crow flies
I won't be long
Straight as the crow flies
I'll be going home

They might put me in the ground
Ain't no devil gonna hold me down
Gonna spread my wings split that sky
If you go first, I'm right behind you

Straight as the crow flies
I won't be long
Straight as the crow flies
I'll be going home

Straight as the crow flies
I won't be long
Straight as the crow flies
I'll be going home
