

# Haywire

David Lee Murphy

We live normal lives in a normal town  
And try to make it home 'fore the sun goes down  
We do everything right by the book  
We know all the rules and don't have to look  
And that's a good thing

It ain't hard to get stuck in the same routine  
You get caught in a rut if you know what I mean  
Wound too tight, gotta let it unravel  
Step on the gas, sling a little gravel  
Yeah, baby you and me

We're gonna go haywire  
Get a little crazy maybe stay out 'til daylight  
It really don't matter if people start thinking we ain't right  
Baby sometimes you gotta go  
Haywire

Well it's crawfish night at the Cajun Gator  
We can dance barefooted on a picnic table  
A little short skirt shaking your hair  
A drink in one hand, baby who cares  
They can't help but stare

We're gonna go haywire  
Get a little crazy maybe stay out 'til daylight  
It really don't matter if people start thinking we ain't right  
Baby sometimes you gotta go  
Haywire

We're gonna go haywire  
Get a little crazy maybe stay out 'til daylight  
It really don't matter if people start thinking we ain't right  
Baby sometimes you gotta go  
Haywire

Get a little crazy maybe stay out 'til daylight  
It really don't matter if people start thinking we ain't right  
Baby sometimes you gotta go  
Haywire

Gotta go a little haywire
