

Voice of Reason

David Lee Murphy

There's things I do at times knowing it just don't make sense
But I just do it anyway, I don't know why it is
The voice of reason never speaks to me

I appreciate the wisdom out there blowing in the wind
But I never seem to hear it even when I'm listening
The voice of reason never speaks to me
The voice of reason never speaks to me

Why's it only good advice that I tend to refuse
Maybe I'm hard headed but I know that's no excuse
The voice of reason never speaks to me
The voice of reason never speaks to me

Yeah I've tried to free my mind but something just ain't sinkin
g in
It's almost in a language I can't seem to understand
But I won't try to justify and blame it all on fate
Me and better judgment, we just don't communicate
The voice of reason never speaks to me

People tell me this ol' world is all cause and effect
In my case it seems like all the dots just don't connect
The voice of reason never speaks to me

Some say spontaneity is something I don't like
I've made a few decisions that I wish I could take back
The voice of reason never speaks to me
The voice of reason never speaks to me
