

Blacklight

David Lee Roth

Baby, somehow you seem to glow, woah
Take me where history unfolds, woah

Blacklight
Blacklight

I have a blacklight
It makes her radiant
I love my blacklight
My girl's fluorescent

Summer of love
One you might have missed
Peace, love and harmony
At a flick of my switch

Blacklight
Blacklight

I have a blacklight
It makes her radiant
I love my blacklight
My gal's fluorescent

Foxy lady
Comin' to getcha

I have a blacklight
It makes her radiant
I love my blacklight
My gal's fluorescent

I love my blacklight, oh
I love my blacklight, woah yeah
