

Champagne Promise

David Nail

Looking you
You don't play fair
Not a word, just standing there
You always know what dress to wear
And how to take it off

Seeking glass and candlelight
In the moment feels so right
You whisper that you want to stay the night
I just left because

You ain't nothing but a champagne promise
All the signs are saying I should be more cautious
You keep coming closer and the rain no stopping
No I can't never slow you down

And girl I know what you really want
Before you get to go and let me tell you something
You ain't nothing but a champagne promise And baby you are the finest
around

Sweet leaps and pretty lies
Say you love me one more time
She'll be gone before you say goodbye
Cause you never do

You ain't nothing but a champagne promise

All the signs are saying I should be more cautious
You keep coming closer and the rain no stopping
No I can't never slow you down

Girl I know what you really want
Before you get to go and let me tell you something
You ain't nothing but a champagne promise and baby you are the finest
around

Oh you are like a bluff
A temporary rush
You are like a thought of us

You ain't nothing but a champagne promise
All the signs are saying I should be more cautious
You keep coming closer and the rain no stopping
I can't never slow you down

Girl I know what you really want
Before you get to go and let me tell you something
You ain't nothing but a champagne promise and baby you are the finest
around
