

Over

David Nail

I don't where we got off track
Or what to say to get us back
Was it something that I said
Was it something that I did

There's something different in your touch
You're never ever close enough
You never have to much to say
Do we have something left to save

I don't wanna be I don't wanna be over
I don't wanna be I don't wanna be over

You say it's different now it seems
It must be you cause it's not me
You're not trying to be cruel
Don't want to play me for a fool

I don't wanna be I don't wanna be over
I don't wanna be I don't wanna be over

We met in the city you were new in town
Seven years together can't we work it out
Is there someone else who's got you thinking about
Maybe something better's why you're leaving me now

I don't wanna be I don't wanna be over
I don't wanna be I don't wanna be over
