

## St. Louis

David Nail

I can hear the crowd  
The sea of red  
My favorite shirt  
Willie was my favorite  
Bought a souvenir  
A few too many beers  
I whispered I love you  
As fire-works filled the sky

When I think about St Louis  
I can't help but think of you  
Yea there's something  
About this city  
Whenever I come passing through  
I can't help but reminisce  
If I had known it be our last kiss  
I never would left you in St Louis

I got the call  
Out on the road  
Somewhere out west  
I never can remember  
You were holding on  
No I couldn't sleep  
I just held the phone  
Took the first flight out that morning

When I think about St Louis  
I can't help but think of you  
Yea there's something  
About this city  
Whenever I come passing through  
I can't help but reminisce  
If I had known it be our last kiss  
I would never left  
Left you in St Louis

Somewhere over Kansas  
I looked across the sky  
Knew you left for heaven  
Felt you say goodbye

When I think about St Louis  
I can't help but think of you  
Yea there's something  
About this city  
Whenever I come passing through  
I can't help but reminisce  
If I had known it be our last kiss  
No I would never left  
Never left you in St Louis  
In St Louis
