Ballad Of A Deadman

David Sylvian

- oh honey take me out i'm a deadman
- Oh baby bake me something sweet
- Oh honey take me out i'm a deadman
- Oh baby give me bread to eat

There are places in the damp northwest where The bodies lie down head to feet There were losses in the california sunshine Tell you stories that you can't repeat

In the winter when the valley's flooded
Those were times where the rooms were cheap
The summer dirt lines the corner's of your pockets
I'm still buried there ten feet deep

Papa don't place this curse on me Heaven knows i can't use it Papa don't place this stone on me Mama there's no future in it

We travel on the back roads lightly Through castle city and through the hills beyond Me and joan on the sacramento

Me and joan this is where we're from

- Oh honey take me out i'm a deadman
- Oh baby bake me something sweet
- Oh honey take me out i'm a deadman
- Oh baby give me bread to eat

Papa don't place this curse on me Heaven knows i can't use it Papa don't place this curse on me Mama there's no future in it

- Oh honey take me out i'm a deadman
- Oh baby bake me something sweet
- Oh honey take me out i'm a deadman
- Oh baby give me bread to eat

Oh honey where's the colours of the springtime The pale green of an organdy dress Her shadow grows in the california sunshine But nothing else in the south south-west
