

I Can't Love

Dawes

Once we let the fire die a bit
I started findin' out who I was really dealin' with
Once we moved past the initial spark
I caught that first glimpse of the person that you really are

Can't love you any more
Can't love you any more

With your easy way of drawing out
The parts of me I don't know how to talk about
How the evening light on your sleepin' skin
Shows me this is all there is that's worth believin' in

I can't love you any more
I can't love you any more
I can't love you any more
Than I do right now

Once we stopped kickin' up the dust
We found out what it's like livin' with both of us

I can't love you any more
I can't love you any more
I can't love you any more
Than I do right now

Than I do right now
Than I do right now
Than I do right now
Than I do right now
Than I do right now
I can't love you any more
I can't love you any more
I can't love you any more
I can't love you any more
