

## Son of Analog

Dawid Podsiadło

I wonder where do we go  
I wonder how do we know  
I wonder is that the world  
We used to love from the start

I think you're not gonna love  
The words I use in my songs  
Sometimes I just get lost  
You would not like me to talk

I think I'm falling apart  
I think I'm gonna explode  
I think I'm not letting go  
What are we singing about  
Why are we scared of the fight  
It's no longer under control

The fire's burning the sheep  
The fire's burning my heart  
The people don't like the sheep  
The people don't like my heart

I think I'm falling apart  
I think I'm gonna explode  
I think I'm not letting go  
What are we singing about  
Why are we scared of the fight  
It's no longer under control
