

Burning Heart

Dawn of Destiny

So my hands reach out for you
It feels like soon I'm there
I am close, can almost touch your face

You can't get that close to me
Keep in mind I'm made for you
Please try to get away from me

Take this burning heart
Don't you ever dare to break it - Leave this burning heart

And should I ever be without my little star
It won't be good for me, maybe not good for you

Please cut the distance that divided our heart
Please take a look into my eyes

Take this burning heart
Don't you ever dare to break it - Leave this burning heart
I ant you now and forever - take this burning heart
