

Childhood

Dawn of Destiny

Love turned to hate
But you're not alone now
Don't beat again
She will not forget

All that you do
Is all that she has left
Trying to cope with it
Feel all her pain

Chorus:

Don't you know
You're needed more than you deserve
Look behind
And see those tears you never saw
Hear her cry
For love, for childhood and it's dream
Try your best
To revive what you destroyed

When did it start
Is no more important
Just when it will end
Out of hell

Everyone cries
With hopelessness, despair
But all your cries
She keeps in her mind

Chorus

Stop this madness, leave it all behind
Stop this sadness, exits you must find
Staying awake with this fear of tomorrow
All that you give her she will give it back
One slap for sadness and one slap for hate
One cause you're drunken and soon it's her fate
