

Adderall / Sold (Outerlude)

Dawn Richard

She was speeding from a high
Her fingertips numb to the night
Mouth felt like the desert sky
She was living fast in life

Pills and dreams controlled her time
She only wanted the pop life
Underneath she held the sky
She was living fast in life

All the days when she slept till noon
She was living like she's dying soon
All the days when she slept till noon
She was living like she's dying soon, soon
Like she's dying soon, like she's dying soon

She was lucid to vice
She saw every color lie
Eyes were like gold in the fire
She smokes fiend right from the pipe

All the days when she slept till noon
She was living like she's dying soon
All the days when she slept till noon
She was living like she's dying soon,
All the days when she slept till noon
She was living like she's dying soon,
Like she's dying soon, yeah soon

We were speeding from from a high
Her fingertips to the sky
We were lucid to the vice

Keep it simple can't buy what ain't for sale
Thieves in the temples told heaven gave it to hell
Get thee right
All these diamonds sold at the highest price
Can't be sure if the trade was worth the hype
Get the right
Don't believe the hype
Don't sleep you're sold
All that glitters is sold
