

Castles

Dawn Richard

So high we could see clouds under our feet
Built towers of dreams just to live carefree
We knew it wouldn't last but we kept hope as our lead
We stood right through the breeze and screamed out c'est la vie

Cause we built castles, castles made of sand
Oh, cause we built castles, castles made of sand
Please don't let it fall, fall, fall
Please don't let it fall, fall, fall
Please don't let it fall, fall, fall
Please don't let it fall, fall, fall

Too close to the sea, the waves almost took me
I held each grain to me, the tide won't take my peace

Cause we built castles, castles made of sand
Oh, cause we built castles, castles made of sand
Please don't let it fall, fall, fall
Please don't let it fall, fall, fall
Please don't let it fall, fall, fall
Please don't let it fall, fall, fall

Even if it's just for a moment
It's not much but it's ours
We're standing on our love
