

Love On The Rocks

Dawn Richard

Hey baby love, you're everything that I be waiting for
You fill it up when I be needing more.
Can't get enough but what you give me that's long call
Boy, you're too good with it.

Say baby love, when I'm with you I'm so damned
I swear it's like I'm so good,
I hit on the floor with it, I hid the blues in it,
Boy, you're too good with it.

Them boys are cool but you're a man, your love is stronger
One shot at you, I wanna be your baby mamma,
We can take it further, further, get harder.
Give it to me harder, give me another hit of that

Love, don't you ever stop,
I want it all till the late drop.
I want that love, give me that love on the rocks,
I want that love, give me that love on the rocks.
Yeah, it's cool when it all comes down,
Then it hits like a drum, let it down
I want that love, give me that love on the rocks,
I want that love, give me that love on the rocks.

Baby love, don't know what you try to do to me
Cause liquid magic bring me, bring me to my knees.
I can't get enough of it, promise you'll never quit,
Boy, you're too good with it.

Them boys are cool but you're a man, your love is stronger
One shot at you, I wanna be your baby mamma,
We can take it further, further, get harder.
Give it to me harder, give me another hit of that

Love, don't you ever stop,
I want it all till the late drop.
I want that love, give me that love on the rocks,
I want that love, give me that love on the rocks.
Yeah, it's cool when it all comes down,
Then it hits like a drum, let it down
I want that love, give me that love on the rocks,
I want that love, give me that love on the rocks.
