

shades

Dawn Richard

I might fuck you with my shades on
I know you like it in the daytime
So baby put ya phone down
And maybe get a face time
So baby leave my shades on
Cause you know I can't stay long
Hey now hey now
Let me get my fix

Say you run through my mind just like everyday
Stay thirsty when I'm workin'
Got me dialin' your line when I'm tryin' to behave
Ready to risk it all babe

I'm on a break
You know that I'm on the way
You know like downtown LA
Driving might be a delay
Don't have all day
Don't let it get in the way
We can do it different places
Do it in different ways
But don't make a mess now
Don't be too quick

I might fuck you with my shades on
I know you like it in the daytime
So baby put ya phone down
And maybe get a face time
So baby leave my shades on
Cause you know I can't stay long
Hey now hey now
Let me get my fix

Magic with the voodoo
I do what you do
Kinky with the boots and the straps loose
Hold my hair back
Let me get the juice too
I still get money like ya crew do
Pluck my guitar like it's U2
I wanna know if it feels good
Keep it coming till I can't move

I'm on a break
You know that I'm on the way
You know like downtown LA
Driving might be a delay
Don't have all day
Don't let it get in the way
We can do it different places
Do it in different ways
But don't make a mess now
Don't be too quick

I might fuck you with my shades on
I know you like it in the daytime

So baby put ya phone down
And maybe get a face time
So baby leave my shades on
Cause you know I can't stay long
Hey now hey now
Let me get my fix

You know you want it
You know, you know you want it
You know you want it
You know, you know you want it
You know you want it
You know, you know you want it
You know you want it
You know, you know you want it...
