

Something about them girls from the nine
Somewhere between Hollywood and vine
I lost that girl from JonLee Drive
I had so many men in power telling me that I was too brave, too confident, too black, too ugly, too thin
That girl believed them
Deep inside the girl from the nine said fuck them

Hold up
These niggas never show up
Had to start with my guns up
Because I'm tired of old stuff
Niggas trying to show off
But ain't got shit to pop off
But I'ma let you go off
While I leave with the go yards

So Imma' go
Imma' do this without you
Cause every time I look there's no you
Imma' go Imma' do this without you
Cause' everywhere I look there's no you

Babe its too late
We can't fill this empty space
Babe its too late
You can't fill this empty space

My jacket spliffs replace your kisses
I hope my victim makes you proud
Maybe one day you will notice
That I made you what you are now

Imma' go
Imma' do this without you
Cause every time I look there's no you
Imma' go Imma' do this without you
Cause' everywhere I look there's no you

Babe its too late
We can't fill this empty space
Babe its too late
You can't fill this empty space

We will
When ever
Do this together
Never
We will
When ever
Do life together
No
