

Vines

Dawn Richard

I don't mean to talk about my personal business but I'm a have
to put it out there
You been putting me in boxes and I don't really feel comfortabl
e for you to talk like this
I feel stifled and I feel like a seed that can't grow
This water is the only antidote
So won't you come on over, free me from these animals
I need you to be the love that I'm searching for
Take your time, expand my mind
Be the water coming down my vines
Down my vines, down my vines

Baby, lay it down
Baby, lay it down, baby, lay it down
Baby, lay it down (Down, down, down)
Water falling down, wa-water falling down
Baby, lay it down (Down, down, down, down)
Lay your water down, lay that water down
Baby, lay it down (Down, down, down, down)

I refuse to think I'm gonna walk this Earth alone, no
I wanna be with you
I wanna be with you
So, I'm a put it out there, let the chips fall where they may
Because I'm too dope to walk this Earth lonely
I wanna find somewhere to stay
So, let me lay under you, babe

Baby, lay it down, baby, lay it down
Baby, lay it down (Down, down, down)
Water falling down, water falling down
Baby, lay it down (Down, down, down, down)
Lay your water down, lay that water down
Baby, lay it down (Down, down, down, down)
