

Used To Be In Love

Dayglo Abortions

I used to be in love with the world
Until I listened to the leaders words
I used to hang around with the guys
When they told me to split I fucking near died

I used to be in love I used to go to the horror shows
Now I don't bother cause I'm one myself
When I go out the people stare
Cause I look like a psychopathic killer

I used to be in love
