

# Set Fire

Dayshell

Face and set your fire

It's okay, it's okay, it's okay  
You'll find an interest in me suddenly  
Look away, look away, look away  
I'm gonna cut you from the in between  
Everyday is it needless to say I'm gonna crawl in my own hole  
Bite my tongue, pierce these lips, steal the kiss  
You're gonna lose me til' I'm all alone

She's here to confuse you  
Cut throats and abuse you  
Suck blood til' there's nothing left

Face and set your fire

It's okay, it's okay, it's okay  
You'll find an interest in me suddenly  
Look away, look away, look away  
I'm gonna cut you from the in between

Don't think you're special  
Save me, wave good-bye

She's here to confuse you  
Cut throats and abuse you  
Suck blood til' there's nothing left  
Don't you think that it's dangerous?  
I don't think you can take it  
You're waking the fire again

Oh, this isn't terminal  
This isn't right  
This is internal  
Oh, this isn't terminal  
This isn't right  
This is internal

Face and set your fire

She's here to confuse you  
Cut throats and abuse you  
Suck blood til' there's nothing left  
Don't you think that it's dangerous?  
I don't think you can take it  
You're waking the fire again

She's here to confuse you  
Cut throats and abuse you  
Suck blood til' there's nothing left  
Don't you think that it's dangerous?  
I don't think you can take it  
You're waking the fire again
