

Sea Of Love

Daze

Don't you never let me go
Don't you ever let it show
I will cry in the sea of love
The stars will always shine
And I'm gonna make you mine, tonight
Tonight, tonight

I believe in rainy weather, some days
But when I'm down and feeling blue
You come and say
"Have you ever really seen the rainbow?
Have you ever really touched the blue blue sky?
Have you ever really seen a falling star?"
Here me cry tonight

Don't you never let me go
Don't you ever let it show
I will cry in the sea of love
The stars will always shine
And I'm gonna make you mine tonight

Tonight, I want you, I need you
And my heart is beating softly baby
If you leave me, deceive me
I will never see the sun rise again

Never fear what love can do to you
'Cause I believe we'll find a way
This I say to you
"Have you ever really seen the rainbow?
Have you ever really touched the blue blue sky?
Have you ever really seen a falling star?"
Here me cry tonight

Don't you never let me go
Don't you ever let it show
I will cry in the sea of love
The stars will always shine
And I'm gonna make you mine tonight

Tonight, I want you, I need you
And my heart is beating softly baby
If you leave me, deceive me
I will never see the sun rise again
Sea of love, sea of love

Have you ever really seen the rainbow?
Have you ever really touched the blue blue sky?
Have you ever really seen a falling star?
Here me cry tonight

Don't you never let me go
Don't you ever let it show
I will cry in the sea of love
The stars will always shine
And I'm gonna make you mine tonight

Tonight, I want you, I need you
And my heart is beating softly baby
If you leave me, deceive me
I will never see the sun rise again
